About Conference

ReproNext 2025 brings together scientists, clinicians, and students to explore the latest advances in reproductive biology and endocrinology and to shape the future of reproductive health in India and beyond.

Program Highlights

The program includes plenary lectures, oral and poster presentations, and interactive panels. A special Clinical CME – Conception to Cradle – will update clinicians on the latest in genetic diagnostics, counseling, and bedside applications in reproductive and neonatal care.

Who Should Attend?

Researchers, clinicians, students, post-doctoral fellows, policy makers, and public-health professionals engaged in reproductive and endocrine health.

What Makes ReproNext Unique?

A science-first platform for sharing research and sparking collaborations, driving bench-to-bedside translation and cross-disciplinary networking, ReproNext is also a launch pad for young researchers to present, learn, and grow their careers.

Mark your calendars and join ReproNext 2025 – where innovation meets collaboration.

Conference Themes

- Fertilization
- Embryonic and gonadal development
- Comparative endocrinology
- Endocrine disorders
- Women's health and disorders
- Pregnancy and newborn baby health
- Male and female infertility
- Environment and reproductive health
- Reproductive tract infections
- Sexually transmitted diseases
- Reproductive cancers
- Fertility preservation in humans and animals
- Alternatives to animal models in reproduction
- Clinical and molecular endocrinology
- New technologies for reproductive health

Submission of Abstracts for Poster and Oral Presentation

Abstracts should be submitted through online portal and should fall within the theme of the conference. The word limit is 250. The screening committee would select the abstracts for oral presentations. Poster presentations would be exhibited, and the competitive category posters will be judged for the best poster awards. The last date for abstract submission is **15th October 2025**.

The society will award six Prof. N.J. Chinoy Best Paper (cash award and certificate) in the competitive section (3 oral and 3 posters) by young researchers. In addition, NIRRCH will award 3 best oral and 3 best poster presentations (cash award and certificate) .

For details of abstracts / Paper / Poster / submission please visit the conference website: <https://repronext.nirrch.res.in/>

About ICMR-NIRRH

The National Institute for Research in Reproductive and Child Health (NIRRH), under the Indian Council of Medical Research, is a premier institute driving cutting-edge research in reproductive biology, endocrinology, and maternal–child health. The institute's core strength lies in fundamental research that translates into innovative solutions for national public-health priorities, including fertility regulation, reproductive tract disorders, maternal and neonatal health, and the prevention of infertility and reproductive diseases. NIRRH bridges basic science and translational research to develop evidence-based interventions that strengthen reproductive and child health programs in India. Through multidisciplinary collaborations, the institute plays a pivotal role in advancing scientific knowledge while contributing to India's public-health goals and capacity building in reproductive health.

About the SRBCE

The Society for Reproductive Biology and Comparative Endocrinology (SRBCE), established in 1980 at the University of Madras under the guidance of Prof. P. Govindarajulu, is a registered scientific society and one of India's most active and vibrant platforms for reproductive biology and endocrinology. Officially affiliated with the Society for the Study of Reproduction (SSR), USA, SRBCE serves as a hub for scientific exchange, networking, and collaboration. Its annual meetings, hosted at premier institutions across India, bring together scientists, clinicians, and students to showcase cutting-edge research, engage in open scientific discussions, and explore the latest advances in reproductive and endocrine sciences. With a strong focus on student participation, mentoring, and international linkages, SRBCE continues to foster a dynamic research community that bridges basic science and translational applications in reproductive health.

SRBCE AWARDS & HONORS

Members are encouraged to apply for the honors bestowed by the society

- Fellowship and membership in Reproduction and Endocrinology (FRE and MRE)
- Prof. P. Govindarajulu Gold Medal Oration
- Prof. B.B. Kaliwal Gold Medal Oration
- Prof. M.A. Akbarsha - Prof. M. Michael Aruldas Gold Medal Oration
- Dr. P. Daisy Gold Medal Oration for young women scientists
- Prof. Saumen Kumar Maitra Best Research Paper Award
- Prof. Chandana Haldar Best Research Paper Award
- Prof. A.V. Ramachandran Best Research Paper Award for original research paper published in the "Journal of Endocrinology and Reproduction" Society's official Journal.
- Prof. N.J. Chinoy Award for Best Research Paper Presentation at the conference
